

I listen to KLOVE 106.7 in the Raleigh/Durham area of NC. It is a wonderful Christian radio station, and I want very much for it to be kept on the air here through the current FM translator service. Please do not change the broadcast service to LPFM, as this would keep me from being able to continue to listen to this station. Christian radio stations are few in number, and I would hate not to be able to hear KLOVE's broadcast. Thank you very much.
